

**Globus Travel Services SA (GTS) Europe is a leading travel services supplier, providing a variety of holidays that address the needs of today's diverse travel sector. IGI International, a company that provides health and safety risk consultancy services to GTS, called upon Linac to meet GTS's future auditing requirements of approximately 580 hotels across 37 countries.**

GTS Europe's Health and Safety team monitors and audits a diverse range of properties and facilities throughout the year. AuditKind, Linac's mobile on-line auditing was the preferred software solution of choice. The application which was tailored to provide specific functionality is helping to increase overall property compliance levels and reduce future risk, a key strategic requirement for GTS.

### **Key benefits:**

- Guaranteed regulatory and legislative compliance, significantly reducing risk
- Distribution of multiple audits on a mass scale, saving and reducing valuable time and money
- Streamlined communication (via letter, email or personalised website pages) optimising workflows
- Automated tasks, tracking and alert features to easily manage the whole auditing process
- 24/7 integrated management reporting suite providing localised and global reports
- User-friendly and highly intuitive and personalized end user interface

# Globus UK & Europe

...And here is the great feedback that we got from GTS!

*"AuditKind definitely provided the solution for our specific need for a web-based auditing system. It was essential that the system was robust, easy to use and administrate. It also had to be flexible enough to use if we needed to change content or develop new audits quickly. We have used the system in over 30 countries and we are now utilising it in the UK for one of our major clients with over 750 sites. It is without doubt leading-edge and I would recommend it to any organisation looking to streamline their auditing processes."*
